

maiwell colour gel anGELic - Spring Collection #15

Product Information

Product summary

High-quality nail gels made in Germany

Description

Bloom with the delicate colour of spring: maiwell colour gel anGELic - Spring Collection #15

This delicate pink (see product image) awakens the anticipation of spring and gives your nails a touch of innocent elegance. The anGELic colour gel is your perfect companion for trendy and colourful nail designs and creative nail art.

Your advantages:

-
- **Radiant colour:** The highly pigmented formulation ensures a rich, even colour that lasts a long time and does not fade.
 - **Easy application:** The creamy texture is effortless to apply and self-blends for a streak-free result.
 - **Long-lasting pleasure:** The gel hardens under UV/LED light in just 120 seconds and is then impact- and scratch-resistant. So you can enjoy perfectly manicured nails for weeks.
