Product summary

If you want it to be smooth!

Description

CND Retention+™ Sculpting Powder Bright White (907 g / 32 oz)

Experience professional perfection with the CND Retention+™ Sculpting Powder in bright white! This high-quality acrylic powder offers you everything you need for long-lasting and naturally beautiful modelling.

Advantages:

- **Creamy texture:** Enables effortless application and even application for a flawless finish.

-
- **Optimal adhesion:** Activates cross-linking and polymerisation in combination with CND Retention+™, Radical SolarNail™ and Moxie™ Sculpting Liquids.
 - **Strong and long-lasting modelling:** Ensures resistant and durable nails that can withstand the stresses of everyday life.
 - **Exceptional clarity and luminosity:** The innovative technology eliminates microscopic air bubbles for a brilliant white and high-gloss result.
 - **Self-smoothing formula:** Enables precise work and allows both thin layers and voluminous modelling.
 - **Versatile use:** Ideal for natural nail enhancements, nail extensions on tips and templates as well as for individual colour blends.

Application:

Mix the CND Retention+™ Sculpting Powder with your favourite CND Sculpting Liquid to achieve the desired consistency. Apply the mixture to the nails and sculpt them into the desired shape. Then allow the modelling to air dry.
