

Table light Moon & Stars

Product Information

Product summary

Schattenfreies Arbeiten

Description

Lamp Moon LED

This work light is not only a visual eye-catcher, the arc shape, which is illuminated throughout with up to 3360LM Softlight LED, prevents shadows from forming and so you can work without disruption and always have perfect illumination of your hands. The light temperature can be freely adjusted from 2700k-5500k. The scope of delivery includes two feet. This means they are flexible and always have a stable stand without having to attach them to the table with annoying brackets. CRI+ prevents flickering when recording videos. This means you can also record great films of your modeling for your social media channels.
