Product summary

Important part of every nail modeling!

Description

Alcohol Isopropanol 99.9% Clear 5 liters

For the best possible liability of the gel paint and a long-lasting result, you are on our way with our Cleaner.

With the Isopropanol cleaner in 99.9%, all oily residues, as well as dirt from the art and natural nail can

be eliminated before the nail model layer. Before the nail modeling, the cleaner ensures the natural nail for the degreasing of the nail and during the modeling for removing the sweat layer after curing of the UV gel.

Other features of the cleaner are that it serves to remove model storage residues or remove failed nail art.

The use of the cleaner is child's light: give some liquid on a cell tap and then wipe over the nail. The cleaner contains no additional dyes, works thoroughly, fast and reliable without the surface damage the nails.

- content: 5 liters equals 1.32 gallons

Note : Use the Isopropanol Cleaner with 99.9% alcohol with stronger or more aggressive gels.
As a standard product, alcohol is recommended 70% concentration.

Use biocidal products carefully. Always read label and product information before use!
