Perfect set-up with minimal effort!

Description

ibd LED/UV French Xtreme HARD GEL - White

For extremely durable and radiant white French nails!

The ibd LED/UV French Xtreme HARD GEL in white is the ideal choice for long-lasting French modelling with perfect white. The viscous formula is easy to apply and work with and hardens in just 60 seconds under LED or UV lamps.

The integrated "cool cure system" prevents unpleasant heat build-up. The robust structure of the gel

ensures strong and resistant nails that look particularly elegant thanks to the permanent high gloss.
