Product summary

Perfect processing of natural and artificial nails

Description

Nail cutter bit S6 - 7mm extra coarse: For powerful yet gentle shaping

This extra coarse bit S6 with a diameter of 7 mm is your reliable partner for efficient and precise removal of material during nail modelling. The special cross-cut structure of the cutter head, which you can clearly see in the picture, ensures fast and clean work, while the titanium carbide alloy stands for

durability and minimal heat development.

Your advantages at a glance:

- **Efficient removal:** The extra coarse grit enables quick and effortless removal of gel or acrylic.
- **Precise shaping:** Ideal for working on tip transitions and shaping nail modelling.
- **Gentle to the natural nail:** The titanium carbide alloy minimises heat development and thus protects the natural nail.
- **Durable & resistant:** High-quality workmanship for professional demands and a long service life.

This bit S6 is the perfect choice for all nail designers who value efficient work, precision and the protection of natural nails.
